

### Fliegl LightBox

Best field of visibility at night

Night work with agricultural machinery places high requirements on the driver. Fliegl therefore offers the LightBox – a lighting package that offers the best field of visibility and maximum safety.

- » Perfect view of the field and the road
- » Maximum driving comfort through automatic switching from road to field lighting
- » In accordance with ISO 11783
- » Intense LED work lights (overall current 60 A, corresponding to approx. 20 LED headlights)
- » To control 4 groups of lights, plus brake light, indicators and tail lights
