

Feeding bucket

Pick up and feed in one step – with discharge on both sides!

- » Fully galvanized version
- » Wear-resistant high-tensile steel scrape rail HB 450
- » For maize and CCM – also suitable for other bulk materials
- » You can use the Fliegl feeding bucket to meter directly into the feed trough on both sides
- » The screw conveyor is driven by 2 oil motors
- » Includes hydraulic couplers and hoses
- » 1x double-acting hydraulic connection required

Illustration with milling drum – feeding on both sides

In combination with milling drum for silo discharge

Everything in one step –
pick up, transport and feed

Optimum utilization
with milling drum

Side cover including
switching valve

For attachment to Euronorm

Art.no.	Product name	Width	Volume approx.	Weight approx.	Qty.
EFSFLM150002V	Discharge on left and right	1500 mm	1.6 m ³	500 kg	Pcs.
EFSFLM200002V	Discharge on left and right	2000 mm	2.1 m ³	580 kg	Pcs.
EFSFLM240002V	Discharge on left and right	2400 mm	2.5 m ³	630 kg	Pcs.
Accessories for a surcharge					
EFSFLM900025	Additional charge for side cover including switching valve				Set

For attachment to farm, wheel or telescopic loaders
